

EP SERIES

TWO CHANNEL DIGITAL OUTPUT

Two channel digital output

Utilizing an incremental encoder as the sensor, the **UniMeasure EP Series** position transducer provides a quadrature square wave output. The resolution values shown in Table 4 indicate resolution for times 1 counting mode where a count is registered for one up transition on channel A. With interface electronics capable of times 2 or times 4 counting mode, a true resolution increase of 2 or 4 may be obtained. The actual resolution of an EP transducer differs slightly from unit to unit because of tolerances associated with the wire rope diameter and the capstan upon which the wire rope winds. In applications where the output count is interpreted as a percentage of total travel, resolution differences from unit to unit are not critical. In applications where the digital output is to be interfaced to a digital display to give an output in engineering units, the calibration constant supplied with the transducer may be used to calculate a suitable scale multiplier to produce the correct engineering units. Alternative outputs shown in the "Optional Electrical Outputs" Table 8 are available to facilitate interfacing to a variety of different types of equipment.

SPECIFICATIONS

GENERAL

Linearity.....	±0.03% Full Scale
Resolution ^[1]	See Table 4
Repeatability ^[2]	±0.015% Full Scale
Construction.....	Aluminum Cover & Baseplate
Sensing Device.....	Digital Encoder
Connector.....	MS3102A-14S-6P
Wire Rope.....	Ø.016 Stainless Steel
Wire Rope Tension.....	See Table 4
Wire Rope Inbound Acceleration.....	See Table 4
Reduced Wire Rope Tension.....	See Supplemental Data, Table 7
Weight	
Up to 50".....	1.0 lb. (0.45 Kg)
60" & 80".....	1.4 lb. (0.63 Kg)
Dimensional Information.....	See Supplemental Data ^[4] , Fig. 1 & 2
Options and Accessories.....	See Supplemental Data ^[4]

ENVIRONMENTAL

Operating temperature.....	-20°C to +80°C
Storage temperature.....	-40°C to +100°C
Shock.....	50 G's for 11 ms duration
Vibration.....	20 Hz to 2000 Hz @ 5G's
Humidity.....	98% R.H. max.(non-condensing)
Ingress Protection.....	IP-40 (NEMA 1)

ELECTRICAL

Input Voltage.....	+5 VDC ±5% or 5-28 VDC
Input Current.....	125 mA maximum
Output.....	Two channel TTL square wave

TABLE 4

MODEL	RANGE		RESOLUTION ^[1]			WIRE ROPE	
	(in)	(mm)	counts/inch	counts/mm	TOLERANCE	TENSION	ACCEL (G's) ^[3]
EP-10	10	250	500.0	19.69	±0.30%	34 oz	43
EP-25	25	640	250.0	9.84	±0.20%	34 oz	37
EP-50	50	1250	250.0	9.84	±0.20%	34 oz	37
EP-60	60	1.5 m	205.8	8.10	±0.20%	24 oz	18
EP-80	80	2.0 m	155.2	6.11	±0.20%	19 oz	7

NOTE: For reduced wire rope tension & acceleration see TABLE 7 on Page 29.

STANDARD OUTPUT WAVEFORM

CONNECTION DIAGRAM

FOOTNOTES TO SPECIFICATIONS

1. The resolution shown is a calculated number based upon the capstan diameter, cable diameter and line count of the encoding device. The tolerance on the resolution accounts for resolution differences from unit to unit due to manufacturing tolerances on the capstan and cable. In practice, the output count in a given unit of travel is an integer.
2. Moving to the same position from the same direction.
3. Maximum cable retraction acceleration.
4. Supplemental Data section located at end of Standard Series pages.

LIFE

Ranges 2" to 5" 5,000,000 full stroke cycles

Ranges 10" to 25" 500,000 full stroke cycles

Ranges 30" to 80" 250,000 full stroke cycles

*With 1K ohm potentiometer, wire rope misalignment 2° maximum at full stroke, relatively dust free environment, and with nylon jacketed wire rope

OPTION DESCRIPTIONS

OPTION	OPTION DESIGNATOR	DESCRIPTION	
Nylon jacketed wire rope	N	Replaces standard stainless steel wire rope with Ø.018 nylon jacketed wire rope. Increases wire rope life dramatically but may increase non-linearity by as much as ±0.05% of full scale.	
Reduced Wire Rope Tension	2	Reduces the overall tension in the wire rope and increases wire rope life. Dynamic response of the transducer is reduced due to the reduced inbound acceleration capability.	
Increased Wire Rope Tension	3	Increases tension in the wire rope which increases the dynamic response of the transducer. On selected units with range of 50" (1250 mm) or less, inbound acceleration capability is 100G's. Wire rope life may be adversely affected by the high tension option.	
Dust wiper	D	Lubricated wiper strips dust and debris from wire rope as it retracts into case. Adds 0.36" (9 mm) height to wire rope exit location.	
Non-standard potentiometer (applies to PA series only)	3,4	Non-standard potentiometer linearity is as follows:	
		RANGE	LINEARITY
		10" to 25"	±0.50% of full scale
		30" and above	±0.25% of full scale
		Note: This option is subject to potentiometer availability.	
Reversed output	R	Output is at a maximum when wire rope is fully retracted. Output decreases as wire rope is extended. Does not apply to velocity or encoder signal.	
Terminal strip	T	Replaces connector with a terminal strip.	

10067 – AUXILIARY WIRE ROPE EXTENSION KIT

The auxiliary wire rope extension may be used to facilitate mounting the transducer remotely from the measurement point. The clip on the extension attaches to the eye fitting on the transducer. The eye fitting on the opposite end, which is identical to the fitting on the transducer, mounts to the moving element. The extension kit is also available with the clip end unterminated for situations where it is more convenient to size the wire rope length during installation. Clip and crimp fitting are included with the unterminated version.

10067- ¹ -CM- ²

- DIMENSION "L"**
Specify Dimension "L" in centimeters to the nearest whole centimeter
NOTES: 1. 1 cm = 0.394", 1 inch = 2.54 cm
2. Shortest length "L" is 5 cm (approximately 2")
- UNTERMINATED CLIP END**
Leave Blank..... Completed kit (No designator required)
U Unterminated Clip End (clip and crimp sleeve included in kit)

REPLACEMENT WIRE ROPE KITS

The replacement Wire Rope Kit includes a new wire rope with all end terminations, wire rope guide, felt dust wiper where applicable and installation instructions. To order, replace 'xx' in the part number with the applicable measurement range in inches.

10107-xx Replacement Wire Rope Kit—Standard Ø.016" Stainless Steel Wire Rope.

10108-xx Replacement Wire Rope Kit—Ø.018" Nylon Jacketed Stainless Steel Wire Rope.

10127-xx Replacement Wire Rope Kit—Standard Ø.016" Stainless Steel Wire Rope with Dust Wiper.

10128-xx Replacement Wire Rope Kit—Ø.018" Nylon Jacketed Stainless Steel Wire Rope with Dust Wiper.
